Section 1: Rationale

At Aldworth School we are committed to giving all of our students every opportunity to achieve the highest of standards and become equipped for life by taking account of students' varied life experiences and needs. We offer a broad and balanced curriculum and have high expectations for all children, reminding them that 'better never stops'. We strive to be a fully inclusive school, and actively seek to remove the barriers to learning and participation that can hinder or exclude students. The achievements, attitudes and wellbeing of all our students matter.

The Department for Education (DfE) has published advice on the Equality Act (2010) for schools, which explains that schools must have an accessibility plan aimed at:

- increasing the extent to which disabled pupils can participate in the curriculum;
- improving the physical environment of schools to enable disabled pupils to take better advantage of education, benefits, facilities and services provided; and
- improving the availability of accessible information to disabled pupils.

The Equality Act (2010) defines disability as *"... a physical or mental impairment that has a 'substantial' and 'long-term' negative effect on your ability to do normal daily activities"*.

This accessibility plan incorporates aspects of the School Development Plan and pays due regard to government law and local County Council directives, including the Equality Act (2010), The Children and Families Act (2014) Part 3, which links in to the SEN Code of Practice (2015), and to previous legislation including the SEN and Disability Act (2001), The Disability Discrimination Act (1995), and Basingstoke County Council's Schools Accessibility Strategy (2017 - 2019). We also work closely with the Specialist Teacher Advisor for Physical Disabilities.

The purpose of this accessibility plan is to set out the school's priorities and proposals to increase access to school education for students with disabilities.

The SEN and Disability Act (2001) extended the Disability Discrimination Act (1995) to cover education. Since September 2002, the Governing Body has had three key duties towards disabled students under part 4 of the Disability Discrimination Act. These are:

- not to treat disabled students less favourably for a reason related to their disability;
- to make reasonable adjustments for disabled students, so they are not at a substantial disadvantage; and to plan to increase access to education for disabled students.

We take advice on support needed for children with disabilities and work with external specialists to ensure students have the support necessary to fully include them in school life.

The action plan ensures that:

- the school draws on the expertise of external agencies to provide specialist advice and support;
- the SENDCo has an overview of the needs of pupils with disabilities;
- there are high expectations;
- there is appropriate deployment and training of learning support staff;
- successful practice is shared within the school;
- the school works with other schools; and
- pupils with disabilities have access to extra-curricular activities.

Section 2: Accessibility plan

The table below sets out how the school will achieve the aims of increasing access to the curriculum for pupils with a disability, improving and maintaining access to the physical environment, and improving the delivery of written information to pupils.
